

SANJAY M

Java Full Stack Developer

Chennai, Tamil Nadu, India | sanjaykalaivani30@gmail.com | +91 9025953879 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Java Full Stack Developer with hands-on internship and project experience building REST APIs and full-stack web applications using Java, Spring Boot, React, TypeScript, and MySQL. Experienced with JWT-based authentication, Spring Security, and real-time features using WebSockets. Strong foundation in backend development, relational database design, and debugging; looking to grow as a full-time Java/Spring Boot developer.

TECHNICAL SKILLS

Languages: Java, SQL, JavaScript, TypeScript, Python

Backend: Spring Boot, Spring MVC, Spring Security, Hibernate/JPA, REST APIs, JWT, WebSockets (STOMP/SockJS)

Frontend: React, TypeScript, Vite, TanStack Query, Zustand, Bootstrap

Database: MySQL, JDBC, Flyway

Testing: JUnit, Mockito, Postman

DevOps & Tools: Git, GitHub, Maven, Docker, Docker Compose, Nginx, GitHub Actions (CI/CD)

Monitoring / Additional: Prometheus, Grafana, MinIO

EXPERIENCE

Full Stack Java Developer Intern — Vybog, Chennai

Feb 2026 – Jul 2026

- Built backend modules and RESTful API endpoints using Java, Spring Boot, and MySQL; integrated them with a React frontend.
- Debugged and resolved functional issues across modules, improving application stability and UI responsiveness.

Web Development & Web Design Intern — Prodigy InfoTech, Chennai

Jun 2024 – Nov 2024

- Built responsive web interfaces and reusable UI components using HTML, CSS, JavaScript, and React JS.

PROJECTS

Relay – Team Collaboration Platform — Personal Project

Java 21, Spring Boot 3, Spring Security, React, TypeScript, MySQL, Hibernate/JPA, WebSockets, Docker

- Built a Slack/Discord-style team collaboration platform with multi-workspace, channel-based architecture and REST APIs using Java 21, Spring Boot 3, React, TypeScript, and MySQL.
- Implemented JWT authentication with refresh tokens and role-based access control (RBAC) using Spring Security.
- Built real-time messaging with STOMP over WebSockets (SockJS), including typing indicators and read receipts.
- Designed relational data models with Hibernate/JPA and Flyway-managed schema migrations; added reactions, mentions, and pinned messages.
- Implemented file sharing with MinIO object storage and a Kanban-style task management module with an analytics dashboard (Zustand, TanStack Query).
- Containerized with Docker and Nginx; automated builds via GitHub Actions CI/CD and added basic monitoring with Prometheus and Grafana.

AI-Powered Lead Generation System — Personal Project

React JS, Spring Boot, Python

- Built a full-stack lead generation platform with AI-driven extraction, enrichment, and validation workflows.
- Integrated RESTful APIs for real-time lead management and built a responsive dashboard for exporting lead data.

Task Management System — Personal Project

React JS, Spring Boot, MySQL

- Built a full-stack task manager with JWT authentication, role-based access control, and RESTful CRUD APIs.
- Designed a responsive Bootstrap-based UI for desktop and mobile users.

Employee Management System — Personal Project

React JS, Spring Boot, MySQL

- Built a full-stack employee management application with CRUD functionality and RESTful frontend-backend integration.

EDUCATION

DMI College of Engineering, Chennai — B.Tech, Information Technology | Aug 2021 – Jun 2025 | CGPA: 7.2/10

CERTIFICATIONS

Diploma in Full Stack Java Development – VyTCDC (2026) | Web Developer From Scratch – Eduonix (2025) | Cloud Computing – NPTEL (2024) | MS Office 365 – Naanmudhalvan (2022)
