GitHub: <https://github.com/sanjay4114>

Professional Summary

Motivated and detail-oriented Full Stack Java Developer with hands-on experience in developing scalable web applications using Java, Spring Boot, React JS, and MySQL. Skilled in building RESTful APIs, implementing CRUD operations, frontend-backend integration, debugging, API testing, and responsive UI development. Familiar with Spring Security, Hibernate/JPA, Git, and deployment workflows. Passionate about solving real-world problems through clean and efficient software solutions.

Education

DMI College of Engineering, Chennai

B.Tech – Information Technology | Aug 2021 – Jun 2025

CGPA: 7.2 / 10

Core Skills

- Languages: Java, JavaScript, SQL
- Frontend: HTML5, CSS3, React JS, Bootstrap
- Backend: Spring Boot, REST APIs, MVC Architecture, JWT Authentication, Spring Security
- Database: MySQL, Hibernate/JPA
- Tools: Git, GitHub, Postman, VS Code, Eclipse, Maven, Docker(Basics)
- Concepts: OOP, Exception Handling, Debugging, API Integration, Responsive Web Design

Work Experience

Full Stack Java Developer Intern – Vybog, Chennai

Feb 2026 – Present

- Developing scalable web applications using Java, Spring Boot, and React JS.
- Designing and integrating RESTful APIs for seamless frontend-backend communication.
- Fixing frontend and backend issues to improve application stability and performance.
- Improved UI responsiveness across desktop and mobile devices for better user experience
- Collaborating with developers on real-time software development projects.

Projects

Task Management System | React JS, Spring Boot, MySQL

Nov 2025 – Jan 2026

- Developed a full-stack task management application using React JS, Spring Boot, and MySQL.
- Implemented secure authentication and role-based task management features.
- Built RESTful APIs supporting complete CRUD operations.
- Designed a responsive user interface using Bootstrap for desktop and mobile users.
- Used Git and GitHub for version control and collaborative development.
- Deployed the application on Render for live hosting.
